Online Assessment Report – 26/10/2018

A stepping stone towards accurate learning with all time accessible examination portal precisely designed by experienced professionals.

Education can effectively function using next generation tools. Teaching large number of students in different classes and making them to take a test or quiz is a challenging task. Online exams are highly interactive, customizable, trustworthy, secure and can be accessed in multiple devices. To conduct the assessment in an effective manner, online assessment is an apt tool for both mentors and students. It consists of a wide range of creative options which serves the purpose of

evaluating, measuring and documenting the academic learning progress effectively and efficiently.

To integrate wholesome education, Vivekananda Educational Trust launched the online assessment in their various units. The launch of the Blended Teaching Learning & Online Assessment Milieu took place in Sri. S. Badalchand Sugankavur Chordia Vivekananda Vidyalaya, Mudichur. This online assessment enhance and invigorate the technology enabled classrooms. Sri. Ananth Subramanian (Centre Head – Chennai, Ondot systems) and Smt. Kalpana Ananth (Sri Sai Homes & Forever young) were invited as the Chief Guests of honor for this launching programme.

Through this online assessment, the children get to see their results with

answers and instant feedback is provided by the mentors which motivates the children for their academic improvement. Mentors can monitor the progress of each student in real time and give help & guidance to students.

Supplementing to many modern practices adopted by our Country to inculcate and digitize ourselves, adhering to the modern world, we have adopted this new way of assessment to equip students to train themselves to face the new era of the digital world, thereby training them to face all types of endeavours and enhancing to the successful in skilful employment opportunities.
